

## **CSP203: Software Tools & Technologies Lab**

### **Lab-6: Practice Problems (HTML)**

**Date: 3-Sept-2024**

#### **Instructions:**

1. Prepare all your solution files in a zip file and name it as <ROLLNO.zip> and submit on canvas.

#### **Problems:**

1. Create your CV using HTML with the following details. Format the CV to give a good appearance.
  - a. Your picture
  - b. Personal details (like, name, address, email id, contact no, gender, DOB) in bullets
  - c. Educational qualifications in the form of a table (S.No, Qualification, University, Marks, Year). In case of. IIT Bhilai, you should have a hyperlink to the IIT Bhilai home page. You should list any other qualifying university websites you may be having. **Demo codes for creating the tables are uploaded on the Canvas.**
  - d. Courses you have taken so far in B.Tech in the form of numbered bullets. Each course should have course code, course name, semester. If the courses are on any website, you should mention the hyperlink.
  - e. Technical skills (list any programming languages and tools, etc) in the form of bullets. The tool names should have hyperlinks to their corresponding websites.
  - f. Mention any awards you have obtained.
  - g. List the details of projects that you have carried out.
  - h. Extra curricular activities you have participated in.
  - i. Any other information that you would like to provide.
